

VxJet 9x/18x

Integrated Valve Jet Printheads

VxJet 9x/18x

Integrated Valve Jet Printheads

Features and Benefits:

Industrial Valve Printhead design features 100% environmentally sealed aluminum housings and steel faceplates for long lasting results in demanding environments.

System Control & Ink Delivery Hub design allows a single system to power and supply ink to multiple heads on separate lines while maintaining system controls safely away from the production line.

Autocode Message Creation offers built-in code formats such as date codes, lot codes and batch numbers to quickly develop messages for printing.

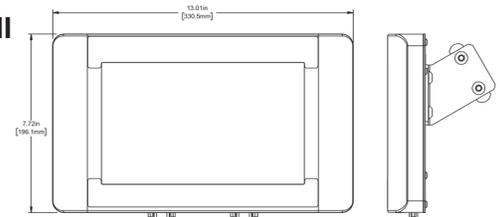

Wide Ink Variety including water and alcohol based formulations are available to print on almost any surface including corrugate, plastic, metal, wood, gypsum and PVC.

System Specifications:

Controller	Marksman HMI
Connectivity	Print 1-Ethernet, 1-USB, 2-RS232
Height	Lines of 5/18" to 7/8" (9x), 5/18" to 2" (18x)
Print	Print Up to 3 stacked lines (18x)
Technology	Print Drop on Demand, Solenoid, 1000hz
Speed	Print Up to 650 fpm
Orientation	Ink 360° for Top, Side and Bottom Printing
Type	Throw Porous or Non-Porous
Distance	Up to 1/2"
Operating Conditions	Temperature: 40° - 104° F (5° - 40° C);
Delivery	Ink Relative Humidity: 10% - 90% (non-condensing)
Supplies	Ink VxJet IDS Large Bulk Supply Supports
Substrates	Multiple Printheads
Autocodes	5 Gallon Pails
Dimensions:	Porous and Non-Porous
	Time, Date, Use By, Julian, Count, Shifts, Variable Input, User Defined
